

# MemPro 100 - 200 H-SS

REVERSE OSMOSIS  
SS SERIES MEMPRO STAINLESS STEEL

- Superior quality & performance
- Affordable & compact
- Frost protection - drainable conception
- Horizontal installation on top of sap tank
- Quick and easy setup
- No need of concentrate tank (batch concentration)
- Low electrical power consumption
- Easy & simplified operation
- Positive recirculation on membrane elements
- Stainless steel frame & plumbing
- Mounted on casters
- Stainless Steel recirculation pump
- SS high efficiency pressure pumps
- Low pressure and high temperature safety protection
- 10 inch filter housing
- Strainer included
- 5 years limited warranty
- Patent # CA 2,642,050
- Patent # US 8,025,799

## Options

- + GFCI Breaker (must be used when installation above sap tank)
- + Concentrate & permeate valve panel
- + Inlet strainer 1 po

**Optional**  
Remotely controlled
